Get To Know The PRO. The **BenchtopPRO®**

**NON-TOXIC**

Engineered to clean without hazardous chemicals. Non-toxic. Non-flammable.

**SELF-CLEANING**

The degreasing solution continually cleans itself, so when you are ready to clean parts, the fluid is clean and ready.

**STRONG**

Built with solid, durable materials for long life and dependability.

**STORABLE**

The self-contained washing system's unique design is easy to store and use without needing to drain the cleaning solution.

**BIOREMEDIATION TECHNOLOGY**

Bioremediation is a safe, environmentally-friendly way to process many kinds of hazardous waste into harmless byproducts using the power of naturally-occurring microbes. Bioremediating parts cleaners are safer for humans as well as the environment. The bioremediation technology in the BenchtopPRO® breaks down grease, oil, and carbon-based contaminants, converting them to byproducts of carbon dioxide and water.

*Microbes are an integral part of the bioremediation process. Add 1 MicroPRO Pack® every 30 days.*
