

CRC BRÄKLEEN® FOAMING BRAKE WASH

Our New Powerful Water-Based Formula

The new patent-pending CRC Bräkleen® Foaming Brake Wash builds upon our legacy of brake cleaning innovation. This product is non-flammable, non-chlorinated, water-based, AND low VOC, but don't expect less performance. This game-changing formula is stronger than other brake cleaners that are 10% VOC or lower. And we didn't stop there. Because the powerful foaming formula does all the work, you can get up to 3X more cleaning power from every can. All you have to do is wipe or blow it dry to finish the job. Use less, and do more with CRC Brakleen® Foaming Brake Wash.

USE ON

- ▲ ABS, Disc, & Drum Brakes
- ▲ Brake Cylinders, Drums, Linings, & Shoes
- ▲ Calipers
- ▲ Clutch Discs
- ▲ Discs & Disc Brake Pads
- ▲ Springs & Wedge Brakes

- ▲ **Patent-Pending, Foaming Water-Based Formula:** Water-based, but cleans like a solvent
- ▲ **Breakthrough Performance:** Stronger than traditional solvent-based Low-VOC brake cleaners
- ▲ **Clean More:** Delivers up to 3X more cleaning per can
- ▲ **<10% Low-VOC Formula**
- ▲ **Fast-Acting Foam:** Quickly penetrates brake grime for faster, more effective cleaning
- ▲ **Innovative, Non-Chlorinated and Non-Flammable Formula**
- ▲ **User-Friendly, Low-Odor Formula**
