

WELDING PRODUCTS

WELD-KLEEN[®] • LUBE-MATIC

Why Choose Weld-Aid®?

Since the beginning, Weld-Aid® products have addressed key issues faced by welders, such as problems with tips and nozzles, wire feed, and post-weld clean-up. Weld-Kleen® coatings minimize the need for grinding by preventing spatter buildup on parts and fixtures. The Lube-Matic system maximizes and improves wire feeding as well as tip and liner life by cleaning and lubricating welding wire. These products consistently deliver superior performance, making them indispensable tools for professionals seeking efficiency and reliability in their welding operations.

Weld-Kleen® HD2 Anti-Spatter

An anti-spatter used in welding to prevent molten metal droplets (spatter) from sticking to workpieces, nozzles and surrounding surfaces. Weld-Kleen® HD2 Anti-Spatter creates a protective barrier, enhancing welding quality and simplifying clean-up.

Part#	Item#	Case/Order#	Size	Units/Case
007034	1755910	1755909	591 ml Aerosol	6

Lube-Matic Lube Pads

Black pads pre-treated with Lube-Matic Cleaner & Lubricant to optimize the performance of all types of steel wire, ensuring exceptional wire feeding even in challenging conditions. Not recommended for aluminum.

Part#	Item#	Case/Order#	Size	Units/Case
007060	1008258	1008160	1 Pack	6

Lube-Matic Kleener Pads

Lube-Matic red pads clean rust and dirt from wire surfaces, enhancing welding performance for all wire types, including aluminum. Ideal for professionals, they improve efficiency and reduce maintenance issues, delivering consistent results.

Part#	Item#	Case/Order#	Size	Units/Case
007061	1008260	1008162	1 Pack	6

Weld-Kleen® 350 AP

All Position (AP) features the same water-based anti-spatter formula as Weld-Kleen® 350 in a convenient, pressurized bag-on-valve aerosol can. It provides high performance and protection without harmful solvents or carbon dioxide.

Part#	Item#	Case/Order#	Size	Units/Case
007088	1008257	1008159	473 ml Aerosol	6

Weld-Kleen® 350

Superior water-based anti-spatter, ideal for protecting parts, clamps, tooling, and fixtures on various base metals. It's non-flammable, versatile, and reliable for industrial or DIY welding and metalworking tasks, with easy application in various bulk sizes.

Part#	Item#	Case/Order#	Size	Units/Case
007090	1008275	1008193	3.78 L Bottle	2
007091	1008183	1008183	19 L Pail	1
007092	1008184	1008184	208 L Drum	1

 Non-Flammable - Black Cap |  Flammable - Red Cap
