Capacity: 56.78 Litres
Load Capacity: 181.4 kg

OZZYJUICE

SW7 PARTS/BRAKE CLEANING SOLUTION

Part Number 14721 Case Number 1005006
19 L Pail 1 each

OZZYMAT™

FL4 MULTI-LAYER OZZYMAT™

Part Number 14124 Case Number 1008483
6 Pack

THE SMARTWASHER® BIOREMEDIATING PARTS WASHING SYSTEM IS SELF-CLEANING AND NON-HAZARDOUS.

A proven leader in the parts washing industry and made in the USA, the patented bioremediating SmartWasher® is the ultimate solution to parts washing.

The SmartWasher® systems employ a natural process called bioremediation to degrade and remove contaminants from the cleaning fluid, allowing re-use of the cleaning fluid. There is no need to change out the cleaning fluid, and therefore, no liquid waste.

The patented systems combine three essential components: the parts washer SmartWasher®, the powerful water-based degreasing solution called OzzyJuice®, and the microbe impregnated particulate trap called an OzzyMat™. The merging of these three remarkable products not only defines the SmartWasher system, but also produces one truly amazing parts washer.
