

KNOCK'ER LOOSE™

Penetrating Solvent

Issue: Rust & corrosion lead to seized, bound and frozen fasteners, which affect the smooth operation and repair of plant machinery, leading to unnecessary downtime and lost revenue.

Application: Whether performing routine maintenance or emergency repairs, quick disassembly of machinery, tools and equipment is key to operating efficiency and improved performance. For the quick removal of nuts & bolts, pins, screws, bushings, clips, hinges, snaps, lugs, caps, locks, washers and sliding mechanisms, you need a fast & effective penetrant.

Recommendation: Use CRC® Knock'er Loose® Penetrating Solvent which is an industrial strength, low viscosity lubricant and penetrant designed to quickly loosen and free seized, bound and frozen fasteners. It quickly permeates rust, scale, gum, grease and corrosion with a low surface tension formula that creeps into cracks, seams, threads and joints with greater efficacy than the competition.

Product Features & Benefits:

Industrial Strength Formula

- Specially formulated to dissolve rust, gum & varnish
- Lubricating residue prevents corrosion from returning
- Outperforms competition as verified by laboratory testing

NSF Registered

- NSF H2 Registered for use in meat & poultry plants
- NSF Registration No. 154083

VOC Compliant Nationwide

Convenient 360° Spray Valve

- 360° spray valve can be sprayed from any position

Part Number	73020
Case Order Number	1006142
Size	369 g Aerosol
Units Per Case	12

KNOCK'ER LOOSE™ VS KANO® KROIL®

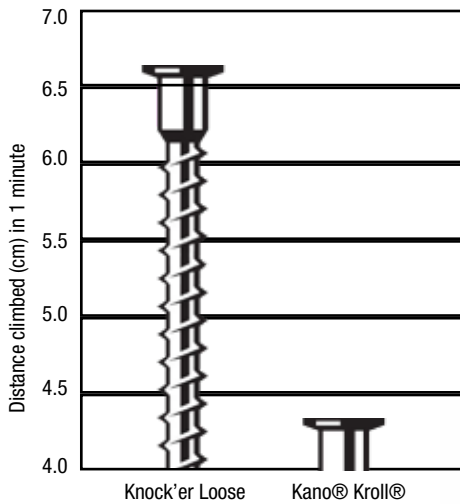

Why Choose Knock'er Loose?

1

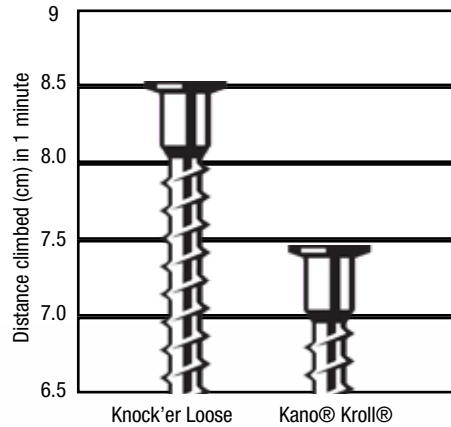

PERFORMANCE

As shown in the laboratory tests below, Knock'er Loose™ outperforms Kroil® in penetration & spreadability. Knock'er Loose™ will penetrate farther into minute cracks and crevices more rapidly than Kroil®.

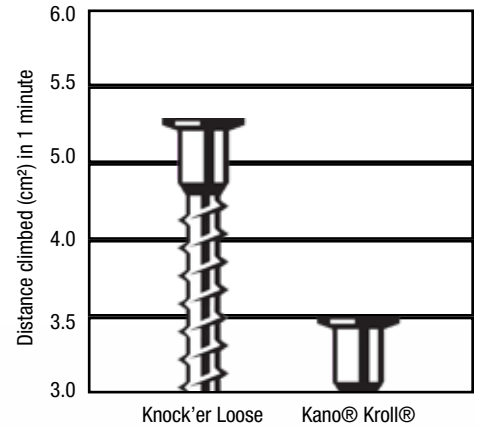

Nail Penetration Test

Q Panel Penetration Test

Spreadability Test

2

NSF REGISTRATION

Kroil® is not NSF registered for use in meat & poultry plants and is not considered a food grade lubricant.

3

VOC COMPLIANCE

Kroil® is sold to all purchasers with the Not For Retail Sale statement on their product, which is typically used on non-VOC compliant product.

4

CRC PRODUCT OFFERING

CRC has direct cross replacement products that meet or exceed user expectations on performance, price & compliance.
